

222 E 3rd ST AUGUST 2014

HOLY THE HORRIBLE

THE UNIVERSITY OF CHICAGO

very beginning

I had no roof of my mouth
when I was Born.

I had to be in an oxygen
tent for months

my parents were not
allowed to visit because I
would get too excited
and rip my stitches. I

would start to choke on my
own blood.

Experimental 1978

1. The first experiment was conducted in the laboratory of the Department of Biology, University of California, San Diego, in the summer of 1978. The purpose of this experiment was to determine the effect of temperature on the rate of photosynthesis in a suspension of chloroplasts. The experiment was conducted using a spectrophotometer to measure the rate of oxygen evolution. The results of the experiment are shown in the table below.

Temperature (°C)	Rate of Oxygen Evolution (μmol O ₂ /mg chlorophyll/h)
10	0.15
20	0.30
30	0.45
40	0.60
50	0.75
60	0.85
70	0.90
80	0.80
90	0.60

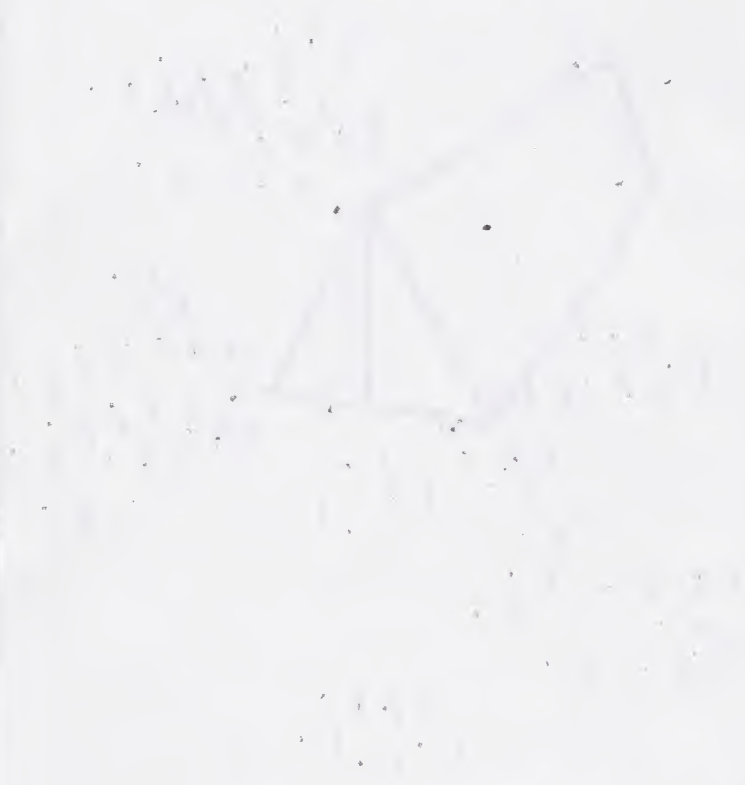

2. The second experiment was conducted in the laboratory of the Department of Biology, University of California, San Diego, in the summer of 1978. The purpose of this experiment was to determine the effect of light intensity on the rate of photosynthesis in a suspension of chloroplasts. The experiment was conducted using a spectrophotometer to measure the rate of oxygen evolution. The results of the experiment are shown in the table below.

Light Intensity (μmol photons/m ² /s)	Rate of Oxygen Evolution (μmol O ₂ /mg chlorophyll/h)
0	0.00
10	0.10
20	0.20
30	0.30
40	0.40
50	0.50
60	0.60
70	0.70
80	0.80
90	0.90

TENT

1897

Beginning

When I finally went home I had to wear boards strapped to my arms so I wouldn't rip the stitches out of my mouth.

H O M E

3. 11. 11

beginning

my mother, when I
wouldn't finish my
dinner, shoved my head
in the trash and said

"eat."

TRASH

1928

beginning

truth be told,
I still loved them
because ~~I was fucking~~
~~4 years old.~~

I didn't know
better.
